DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Stephenson et al. 4,776,606.

Stephenson discloses an apparatus for attaching a towed implement to a tractor comprising:

- A hitch (12)
- A first pivotable connector (68, the pivoting action being that of the hitch pivoting around the end of the drawbar) associated with a forward part of the hitch (12) for coupling to the drawbar (14) of the tractor
- A stabilizer (45) extending laterally from the hitch (12) having elements (84) for coupling to the lift arms (16) of the tractor to prevent the pivoting action about the first pivotable connector
- A second pivotable connector (48) associated with a rearward part of the hitch (12) for establishing a second pivotable connection (around axis Y) between the hitch (12) and a hitch pivot (30) of a towed implement (20).

Response to Arguments

3. Applicant's arguments with respect to claims 1 and 9 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

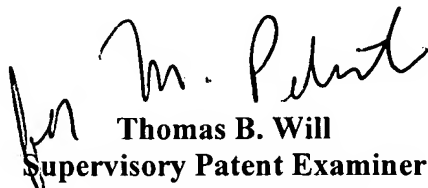

4. Claims 2-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
